CONTENTS

Infrared spectroscopic study of acetonitrile in aqueous inorganic salt solutions and comparison with related polyacrylonitrile solutions
A.R. Hoskins, H.G.M. Edwards and A.F. Johnson (Bradford, UK) 1

The preparation and vibrational spectrum of trichloromethanesulphonic acid, CCl_3SO_3H
H.G.M. Edwards and D.N. Smith (Bradford, UK) 11

Temperature-dependent low-resolution microwave studies of benzyl halides
S.A. Sorenson and N.S. True (Davis, CA, USA) 21

Spectroscopic study of structure and intermolecular interactions of diphenylformamidine and diphenylacetamidine in solution
S.F. Bureiko and I.V. Chernyshova (Leningrad, USSR) 37

FT-IR spectroscopic studies of polyurethanes. Part I. Bonding between urethane C–O–C groups and the NH groups
J. Bandekar and S. Klima (Murray Hill, NJ, USA) 45

Chromophore-selective resonance Raman spectra of copper(II) croconate and rhodizonate complexes with nitrogenous counterligands
L.F.C. de Oliveira and P.S. Santos (São Paulo, Brazil) 59

Raman study of the high-temperature phase transition in CsH_2PO_4
F. Romain and A. Novak (Thiais, France) 69

Vibrational spectra and conformational analysis of potassium *cis*-2-hexenoate and potassium *cis*-3-hexenoate
K. Tsukamoto, S. Horiuchi, K. Taga, T. Yoshida and H. Okabayashi (Nagoya, Japan) 75

Hydrogen bonding involving α,β-unsaturated carboxylic esters and substituted phenols: an infrared spectroscopic study
M.D.G. Faria, J.J.C. Teixeira-Dias and R. Fausto (Coimbra, Portugal) 87

Conformational stability, barriers to internal rotation, ab initio calculations and vibrational assignment of ethyl methyl sulfide
J.R. Durig, M.S. Rollins and H.V. Phan (Columbia, SC, USA) 95

Force field calculations for ethanedial, butanedione and some cyclic, 1,2-diketones with respect to the influence of the intercarbonyl dihedral angle on their vibrational frequencies
R. Sander and H. Bettermann (Düsseldorf, Germany) 123

On the use of the centrifugal distortion constant R_6 for the determination of the structures of XF_5 and YXF_5 molecules of C_{4v} symmetry
P.N. Brier (Manchester, UK) 133

Forms of normal vibrations in the presence of redundant coordinates
A. Kulczycki (Kraków, Poland) 151

Conformational analysis of bicyclic systems including the N–C–O unit by molecular mechanics. Part III. Perhydro-oxazolo[3,4-a]pyridine, perhydro-oxazolo[3,4-c][1,3]oxazines and perhydro[1,3]oxazino[3,4-c][1,3]oxazines
B. Fernández, L. Carballeira and M.A. Ríos (Santiago de Compostela, Spain) 157

Radial functions and the nature of the binding in LiCl and LiBr
J.F. Ogilvie and M.C.C. Ho (Taipei, Taiwan) 167

Vapour-phase asymmetric top simulation of the carbonyl stretch in some simple esters
B.J. van der Veken and H.H. Liefooghe (Antwerp, Belgium) 177

A molecular mechanics study of *trans*-stilbene
B. Mannfors (Helsinki, Finland) 207

Matrix isolated $[Fe(CO)_4]^-$ — a case of mistaken identity?
J.A. Timney (Wallsend, UK) 229

Crystal and molecular structures of pyrylium salts. Part III. Crystal and molecular structure of 2,6-diphenyl-4-(4-*N,N*-dimethylaminophenyl) pyrylium perchlorate: a case of a long distance substituent effect on geometry of the pyrylium ring
I. Turowska-Tyrk and T.M. Krygowski (Warsaw, Poland) and P. Milart (Cracow, Poland) 235

Crystal and molecular structure and infrared spectra of tetraethylammonium hydrogen phthalate and tetrabutylammonium hydrogen phthalate
S.M. Jessen and H. Küppers (Kiel, Germany) 247
Structural studies on artificial sweeteners: *N*-(4-(1-propyloxy)-phenyl)-urea
R.W.W. Hooft, J.A. Kanters and J. Kroon (Utrecht, The Netherlands) 267
Molecular structure and conformations of bicyclohexyl, $(C_6H_{11})_2$, as studied by electron diffraction, vibrational spectroscopy and molecular mechanics
O.V. Dorofeeva and V.S. Mastryukov (Moscow, USSR), A. Almenningen, A. Horn and P. Klaeboe (Oslo, Norway), L. Yang and N.L. Allinger (Athens, GA, USA) 281
Trimethylamine *N*-oxide, structure and bonding investigated by gas electron diffraction and ab initio MO calculations
A. Haaland and H. Thomassen (Oslo, Norway) and Y. Stenstrøm (As-NLH, Norway) 299
Determination of the molecular structure of *tert*-butyldimethylsilane in the gas phase by electron diffraction
G.A. Forsyth, D.W.H. Rankin and H.E. Robertson (Edinburgh, UK) 311
Structural characterization of solution-crystallized ^{13}C-labeled polyethylene over a wide range of temperatures by means of high-resolution ^{13}C NMR spectroscopy
Q. Chen, T. Yamada, H. Kurosu and I. Ando (Tokyo, Japan), T. Shiono and Y. Doi (Yokohama, Japan) 319
Photoelectron spectra and electronic structures of 2-alkoxy-1-*tert*-alkyldiazen-1-oxides and 1-alkoxy-3,3-dialkyltriazen-2-oxides
M.A. Kuznetsov, Y.P. Artsybasheva and B.V. Ioffe (Leningrad, USSR), P. Rademacher and M. Woydt (Essen, Germany) 329

Short Communication
Do the C–C bond lengths depend on the bond angles?
V.S. Mastryukov (Moscow, USSR) 343
